Conservation Management INTERNS

We are looking for high school students to engage in a conservation-based internship across Nebraska from May 31 - June 13, 2026.

Qualifications:

- High school students interested in conservation, nature, sustainability, or just being outdoors
- Must be at least 15 years old
- Parent approval needed

Job Description:

- We will be adventuring during a two-week internship from May 31 - June 13, 2026.
 - Interns will receive a \$500 stipend
 - Groups will travel to organizations across Nebraska* to learn about conservation practices, skills, and careers from professionals in the field.
 - Interns will be expected to engage in hands-on field work alongside professionals.
 - Activities could include prairie restoration, invasive species removal, planting native flowers and much more!
 - Students will also enjoy recreational activities like swimming, hiking, and campfires!
