

BSB Sponsored Student Challenges

In order to provide programming flexibility in response to the unknown situation we will be in this summer, BSB will organize and facilitate Challenges / competitions to create opportunities for independent project activities in communities across the state. Please visit the webpages to learn about the Mission to Mars and Entrepreneurship prizes. For the Tree-a-thon, programs will have all necessary materials (including trees) paid for by Beyond School Bells.

Student challenges are open to all Nebraska summer programs and students, no application is needed.

(1) Mission to Mars 2.0

<https://beyondschoolbells.org/curriculum/bsb-student-challenges/mission-2-mars-challenge.html>

(2) Entrepreneurship

a. Spring Pitch Challenge

<https://beyondschoolbells.org/curriculum/bsb-student-challenges/pitch-challenge.html>

*additional summer opportunities will be available to programs that participate in the Spring Pitch Challenge.

b. Summer Spark Mentorship (invite only)

(3) Tree-a-thon <https://beyondschoolbells.org/curriculum/>

Programs interested in finding out more about these projects should contact Dakota Staggs at dstaggs@nebraskachildren.org.
