

# Math LB – Jeopardy Game!

## Big Question:

Can we sharpen our math skills with the Jeopardy game?

## Set the Stage:

This is just normal jeopardy. The emphasis here is on repetition/practice so make sure all group members participate. In case you need a reminder of how the game Jeopardy works. [https://www.youtube.com/watch?v=B5NbCOCGQ\\_Q](https://www.youtube.com/watch?v=B5NbCOCGQ_Q)

## Resources:

## Activity:

### Procedure:

- Create groups of 2-3
- Open the [jeopardy board](#) and share your screen
- Have groups decide on names or number them
- Give each group 90 seconds to solve the problem
- Ask the groups to submit their multiple-choice answers.
- One point for correct answer, 2 points for the explanation.
- Repeat

**Note to Facilitator** - Ask students to write down problems they struggled with for their own review later

**Reflection** – Have students talk about any problems that they struggled with. Address the related issues.

## Materials:

- Access to a computer
- Access to Wifi
- URL - <https://jeopardylabs.com/play/act-math-51>
- Paper. Pencil/pen to note problem areas
