

Science LC – Robbery Game!

Big Question:

What is a robbery?

<https://www.youtube.com/watch?v=U3zbyPAGe2E> 1 minute, 26 seconds

Set the Stage:

Using ACT practice tests, team work together to come up with correct answers. Teams can steal points from other teams based on how many questions (of 10) they get correct.

Activity:

Procedure: After the intro video:

- Ask what is the lesson here?
- Create Teams of 2-3
- Open the URL - <https://www.crackact.com/act/science/>
- Click on Text one, revealing the first 10 questions; they have 10 minutes to work. Have them click "Submit" to reveal correct and incorrect answers.
- Come back together to reveal who got the most right. Determine 1-3 place.
- See scoring below
- Repeat with test 2, etc. as time allows.

Note to Facilitator: Ask students to write down problems they struggled with for their own review later

Reflection – Work as a team to discuss questions that were a struggle.

Suggested Scoring – Start with the 1st place team. They can answer up to 3 questions to earn points - Correct answer = 1 points and Correct explanation = 1 points. Tally up their total points (answers + explanations). They can steal that number of points from any team. Go to the 2nd place team and repeat. They can answer the rest of the questions. If 2nd place can only provide correct answers with no explanation (Each answer = 1 point) then the third-place team can provide explanations for the unclaimed points.

Materials:

- Internet
- Laptop per team or projector
- URL - <https://www.crackact.com/act/science/>
- Paper, pen to keep track of scoring
